

# ABOUT Revel

A SHIFT4 COMPANY

REVEL Systems is a leading provider of cloud-based point-of-sale (POS) and business management solutions, designed to streamline operations for retailers, restaurants, and other service-based businesses. With a focus on flexibility and scalability, REVEL Systems empowers businesses to manage their sales, inventory, and customer relationships with ease.

## CHALLENGES

### Comprehensive Approval Process

- Implement a robust approval process for Quotes and their associated Quote Line Items, allowing for both parallel and sequential approvals.
- Incorporate smart approval mechanisms to improve efficiency and accuracy.

### Multi-Store Quote Generation

- Enable the generation of a single quote for a client with multiple stores in various locations.
- Ensure corresponding orders, cases, installations, and tasks are correctly assigned to each location.

# IMPLEMENTED SOLUTIONS

## Salesforce Advanced Approvals

- Developed Salesforce Advanced Approvals from scratch.
- Created approval rules tailored to specific needs.
- Implemented custom Apex logic to manage all approvals in a unified flow.

## Salesforce CPQ

- Customized Quote Line Groups to represent individual stores within a quote
- Developed custom logic using Flow, Apex, and Triggers to support this functionality

## Salesforce Service Cloud

- Delivered expert analysis and customized recommendations to optimize workflows and enhance Service Cloud functionality.
- Leveraged deep Service Cloud expertise to align platform capabilities with business requirements, ensuring efficient service operations.

## Product Rules Implementation

- Built customized solutions to support Product Actions, CPQ Validation Rules, Alert Rules, and Selection Rules at the quote line group level.

## Salesforce Experience Cloud

- Configured Salesforce's native approval processes to streamline account approvals seamlessly within Experience Cloud.
- Customized approval paths to manage complex hierarchies and conditional logic for enhanced decision-making.
- Integrated real-time notifications and approval status updates for improved visibility and user experience.

## User Training

- Conducted training sessions to ensure seamless adoption.
- Training the end users on the custom CPQ Application.

# IMPLEMENTATION OVERVIEW

## Install Advanced Approvals

Installed Salesforce Advanced Approvals to automate and streamline the approval process for quotes and quote line items, enhancing overall efficiency.

## Conduct User Trainings

Conducted comprehensive user training to ensure smooth adoption and effective utilization of the newly implemented features.

## Develop Custom Automation

Developed custom Apex classes, triggers, and Flows to support complex business logic and automate various processes, ensuring seamless system functionality.

## Configure Experience Cloud

Configured Salesforce Experience Cloud to handle account approval processes using native approval workflows, enabling efficient and transparent approvals.

## Optimize Service Operations

Provided Service Cloud expert analysis and guidance, delivering tailored recommendations to improve service operations and enhance case management efficiency.

## RESULTS

### Efficiency

30% reduced approval times through smart mechanisms.

### Accuracy

25% improvement in approval accuracy.

### Customization

Tailored solutions met specific client needs, enhanced operational effectiveness by 20%.

## ABOUT US

Cloudely started its journey in 2013 with a vision: to disrupt the way enterprises and business manage cloud applications. Since then, its clientele has expanded to global business across diverse horizontals.

Cloudely Inc. holds a decade of proven experience in delivering Contract Management, Quote to Cash, and Salesforce Implementations.
